*This product is not manufactured or distributed by Bayer HealthCare, distributor of the product Domeboro®

Drug Facts**Active ingredients (in each packet)**

Aluminum sulfate tetradecahydrate, 1347 mg Astringent*
Calcium acetate monohydrate, 952 mg Astringent*

*When combined together in water, these ingredients form the active ingredient aluminum acetate. See **Directions**.

Uses for temporary relief of minor skin irritations due to:

- poison ivy • poison oak • poison sumac • insect bites • athlete's foot
- rashes caused by soaps, detergents, cosmetics, or jewelry

Warnings**For external use only****When using this product**

- avoid contact with eyes. If contact occurs, rinse thoroughly with water.
- do not cover compress or wet dressing with plastic to prevent evaporation
- in some skin conditions, soaking too long may overdry

Stop use and ask a doctor if condition worsens or symptoms persist for more than 7 days

Drug Facts (continued)

Keep out of reach of children. If swallowed, get medical help or contact a Poison Control Center right away.

Directions

- dissolve 1 to 3 packets in a pint (16 oz) of cool or warm water
- stir until fully dissolved; do not strain or filter. The resulting mixer contains 0.16% (1 packet), 0.32% (2 packets), or 0.48% (3 packets) aluminum acetate and is ready for use.

For use as a soak:

- soak affected area for 15 to 30 minutes as needed, or as directed by a doctor
- repeat 3 times a day or as directed by a doctor
- discard solution after each use

For use as a compress or wet dressing:

- soak a clean, soft cloth in the solution
- apply cloth loosely to affected area for 15 to 30 minutes
- repeat as needed or as directed by a doctor
- discard solution after each use

Drug Facts (continued)**Other information**

protect from excessive heat

Inactive ingredient dextrin
